Portfolio | LinkedIn | GitHub

Career Summary

MERN Stack Developer with **2+ years of hands-on experience** building responsive and scalable web applications using **React, Next.js, Node.js, TypeScript, Express.js, and MongoDB**. Experienced in RESTful APIs, backend services, authentication, database design, deployment, debugging, and production support. Familiar with **AWS EC2, Linux, NGINX, SSL/TLS, environment configuration, CI/CD, and server maintenance**. Strong focus on performance, security, clean architecture, and reliable application delivery.

Technical Skills

- **Frontend:** React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Redux Toolkit
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, Cookie-based Authentication
- **Database:** MongoDB, Mongoose, CRUD Operations, Schema Design, Data Modeling
- **Cloud & Deployment:** AWS EC2, Linux, NGINX, Reverse Proxy, SSL/TLS, Environment Configuration
- **DevOps:** CI/CD Pipelines, Automated Build/Test Workflows, Git, GitHub, Deployment Automation
- **Tools:** Postman, VS Code, npm, GitHub, REST API Testing

Experience

Junior Full-Stack Developer

Leapot Technologies, Pune | Feb 2025 – Present

- Develop scalable full-stack applications using **React, Node.js, Express.js, MongoDB, and REST APIs**.
- Build responsive and reusable frontend components using React, JavaScript, and TypeScript.
- Design and implement backend services, RESTful APIs, authentication, authorization, and server-side business logic.
- Design MongoDB schemas and implement CRUD operations and data relationships using Mongoose.
- Configure application environments, deployment settings, API integrations, and production builds.
- Work with **AWS EC2, Linux, NGINX, reverse proxy configuration, SSL/TLS, and application hosting**.
- Troubleshoot application issues, optimize performance, and improve system reliability and security.
- Use Git/GitHub for version control and collaborate throughout the development lifecycle.

Full-Stack Developer Intern

Leapot Technologies, Pune | Aug 2024 – Feb 2025

- Developed full-stack modules using **React, Node.js, Express.js, MongoDB, and REST APIs**.
- Built reusable UI components, API integrations, authentication flows, and backend functionality.
- Assisted with database schema design, API testing, debugging, and performance improvements.
- Used Git/GitHub and Postman for source control, API development, testing, and debugging.
- Supported application deployment, environment configuration, and production issue resolution.

Education

G. Pullaiah College of Engineering and Technology, Kurnool

Aug 2019 – Jun 2023

Bachelor of Technology in Computer Science and Engineering

GPA: 7.96 / 10.0
